

Fisherman Bay Management and Barunga West Council invite you to join us as we celebrate the start of critical infrastructure works at Fisherman Bay.

After decades of uncertainty, we are proud to be commencing work on road infrastructure, stormwater and coastal protection measures as well as connection for the township to the improved and expanded Port Broughton Community Wastewater Treatment System.

This infrastructure will shape the future of Fisherman Bay, providing certainty for residents and generating lasting benefits for the wider Top of the Yorke region.

To mark this significant occasion, a ground-breaking ceremony will be held on site, followed by a barbecue brunch. Along with other invited guests and media, all public are welcome to join us in celebrating this proud moment for our community.

Thursday 16 June 2022
10am ceremony, 11am brunch
Fisherman Bay Management depot
